

NIH Oral Histories

NIH Oral Histories

Below is an alphabetical listing of oral histories held by the Office of NIH History and Stetten Museum. They are part of an ongoing project to capture the voices of the people who helped to make the NIH the nation's premier biomedical and behavioral research institution. You can also search these histories by [NIH Institute or Center](#).

In addition to these oral histories, the Office of NIH History and Stetten Museum has embarked on a project to collect externally conducted oral, video, and written histories of leading NIH scientists. Please refer to our [Eminent NIHers](#) section for this complementary collection.

To request a transcript of an interview not yet posted, please contact the Office of NIH and Stetten Museum at 301-496-6610 or history@nih.gov. We welcome suggestions of additional sources of NIH oral histories not listed. And please visit this site again, as this list continues to grow.
